

## your feedback moves the world

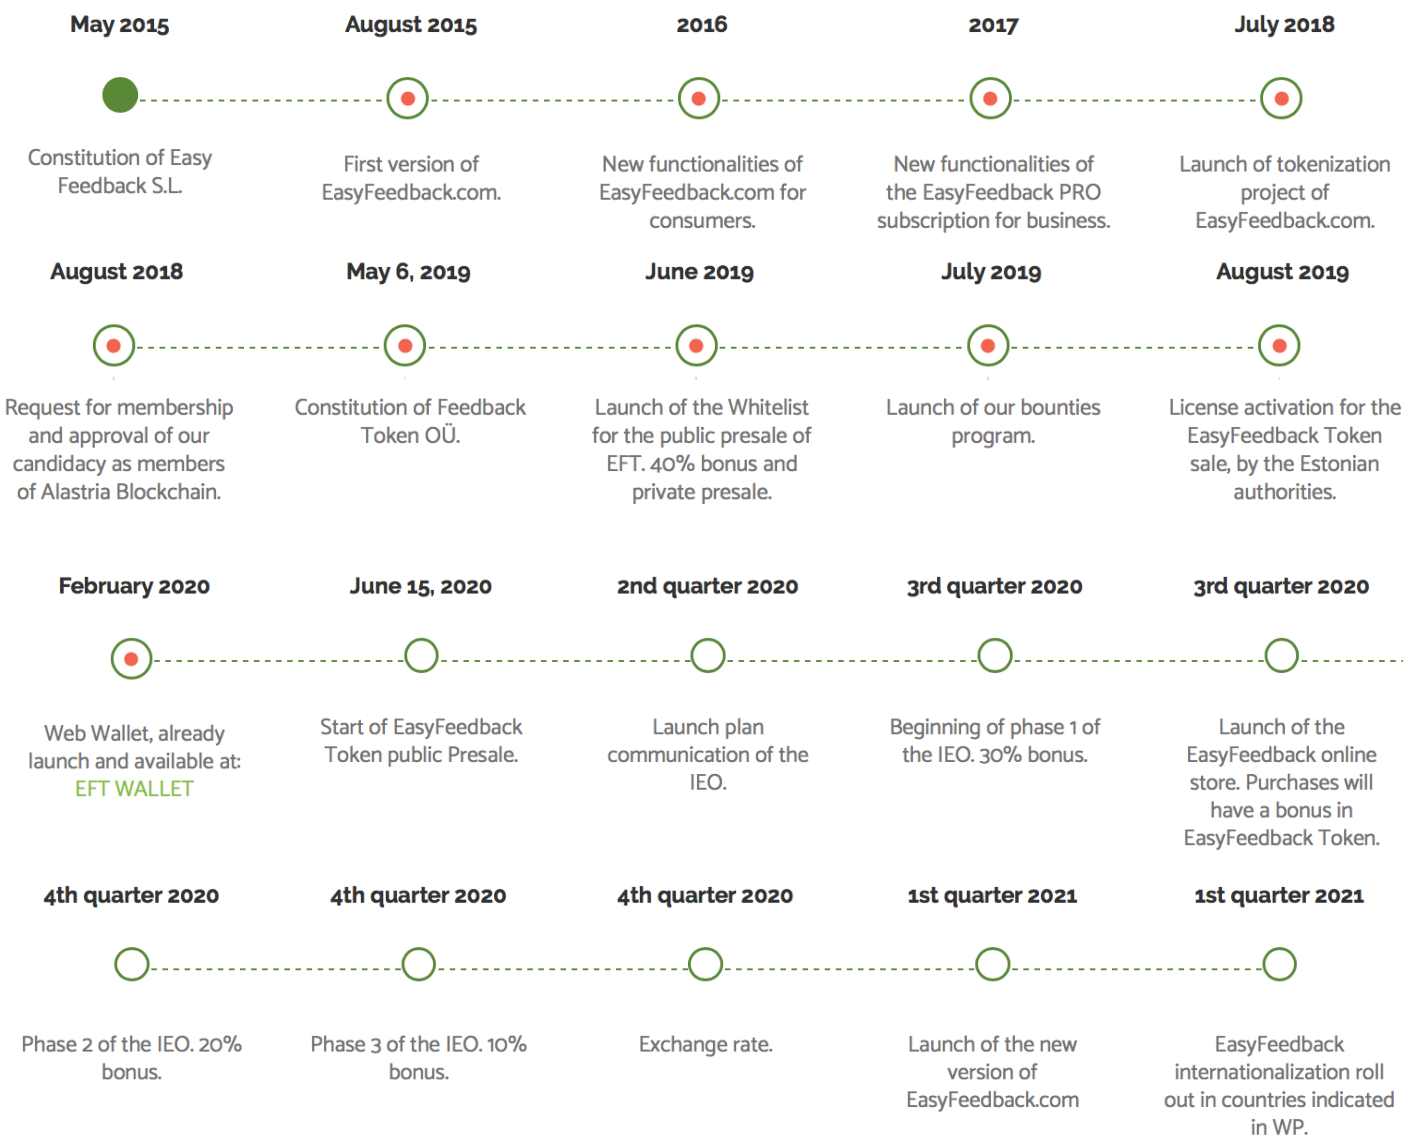

EasyFeedback Token "EFT" was created to reward people who communicate useful and private feedback from [www.EasyFeedback.com](http://www.EasyFeedback.com) to improve products, services and processes of companies and institutions. Our "Proof of Feedback" grants "EFT" can be exchanged for products, services, cryptocurrencies or money at a market price.

After the PRE-SALE, the "EFT" token will be sold through an IEO (Initial Exchange Offering).

### How do we earn money?

### Roadmap

# Reasons to buy the EasyFeedback token"EFT"

## 1. A business that already exists

Easy Feedback has been involved in the feedback market since 2015, as a trusted third party, with an online platform that connects customers and companies since mid-2015.

## 2. Solid Business Model

No matter what sale of Token is performing, EasyFeedback has a solid business model based on products already developed.

## 3. Tested technology

EasyFeedback already uses a secure, proven and easily scalable technology to internationalize and commercialize the project, with 730,000 dollars already invested.

## 4. More than 280,000 Feedbacks

More than 280,000 feedbacks sent to more than 10,000 companies in 50 different countries. 200 to 300 feedback are sent daily. 89% will use it again.

## 5. Legal advice service

The legal advisory service has been launched in May 2019 and already available in Spain, Mexico and Colombia. For the rest of the countries as we explain in whitepaper.

## 6. Subscription to Easy Feedback PRO

Companies are already buying the EasyFeedback PRO subscription. 97% Client Loyalty.

## 7. Blockchain and "EFT"

By incorporating the blockchain, we add to the existing process the possibility of rewarding the feedback with a digital asset and the opportunity to involve our users in the

## 8. Feedback will grow

By rewarding the feedback, we will have more users on the platform. The "EFT" will serve to accelerate and increase the utility and benefits of our business and make it reach

## 9. Bonus between 10% and 40%

People who acquire "ETF" in the IEO will obtain a bonus between 10% and 40% on the price of the token, depending on the phase at which they buy.

## 10. Exchanges

EasyFeedback Token "EFT" is a digital asset that will be listed in cryptocurrency markets where it can be sold.

## 11. Liquidity

Thanks to:

1. Easy Feedback S.L will dedicate 20% of Profit to buy "EFT" in the market;
2. Our 4 Products for consumers (Legal Advise; use of EFTs in EasyFeedback's online market place; in debit card and the EFT exit fees);
3. Our 6 products for companies (EasyFeedback PRO Subscription, EasyFeedback IoT, EasyFeedback Health, EasyFeedback Survey, EasyFeedback Review) require the purchase or sale of "EFT" in the market.

## 12. Stability

50% of the "EFT" acquired by Easy Feedback S.L are distributed among people who hold "EFT" in their wallet. It facilitates the "stabilization" of the price and the owners of the token have the possibility to participate in the growth of the business model.

The other 50% of acquired tokens is returned to the total supply, ensuring the sustainability of supply of "EFT".

## 13. Online store

The "EFT" can be used to buy exclusive and original products in our online store. And if they do not find anything of interest, they can exchange their tokens for gift cards.

## 14. The global "Hub" of Feedback

We want to be the link between private feedback sent from customers to companies and institutions globally.
